SLC4075TechNote202_BACnetDiscoveryUsingBACnetExplorer.docx

This document replaces former SLC4075TechNote202_BACnetDiscoveryUsingYABE

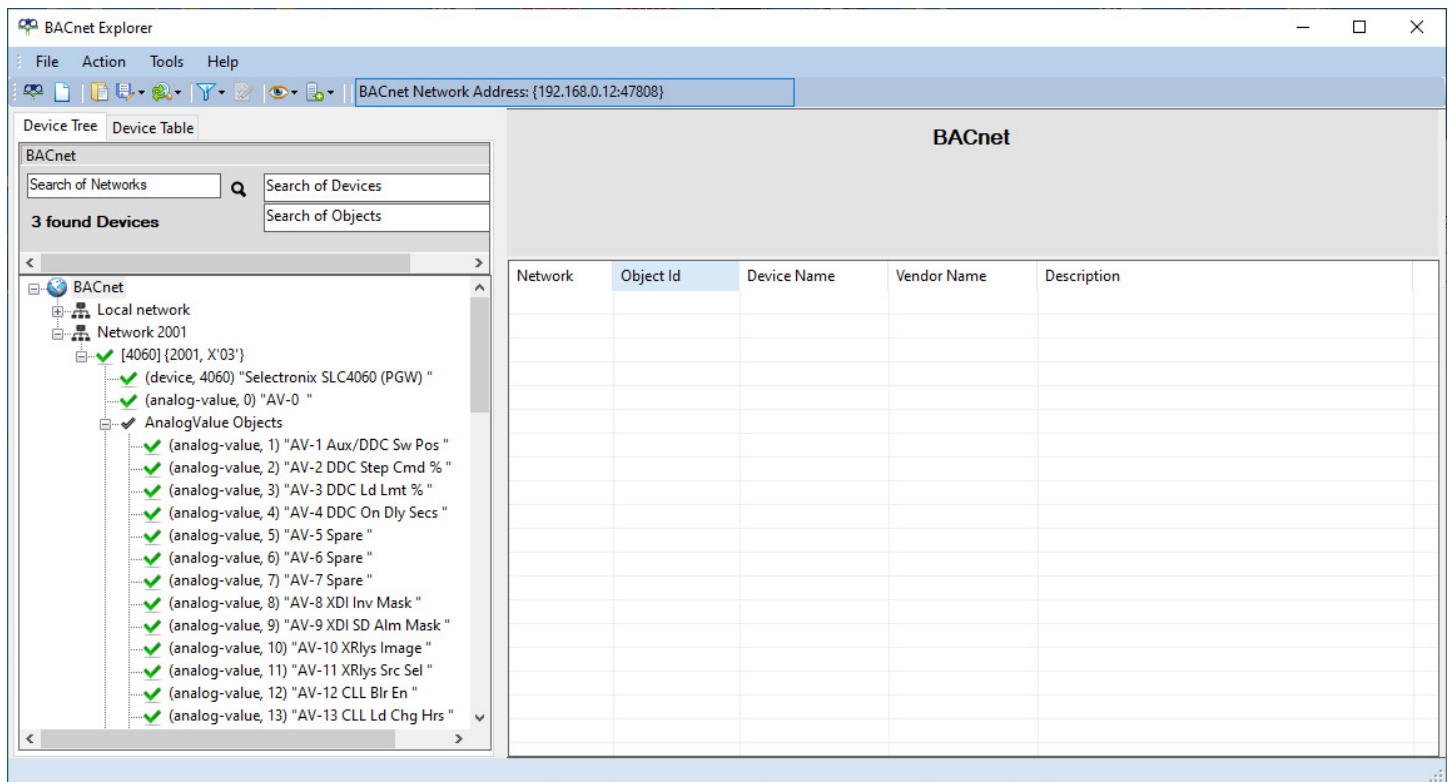

Rev. 02/01/24

Purpose: Use Free Cimetrics © BACnet Explorer to verify SLC4075, TouchScreen Gateway (TSGW)

1. Using a Windows laptop PC, go to <https://www.cimetrics.com/collections/bacnet/products/bacnet-explorer>
 - a. Select “FREE EXPLORER, ADS, NO SUPPORT”
2. Configure laptop network adapter to 192.168.0.243.
3. Download, install and run BACnet Explorer.
4. *The following images are from the paid version which may differ slightly from free version*

5. In the left pane, click on :Local Network”
 - a. In the top menu bar, s “Action”
 - i. Select “Explore Everything”
 - ii. In the popup, select “Read All”
 - iii. <OK>
 - b. In the left window
 - i. Select the applicable network
 - ii. See and Select [4060]
 - iii. See the datapoints displayed, similar to the image below:

This verifies the SLC4075 is able to communicate our BACnet data points.
